Who We Are

Ocean Field Energy DMCC is a leading maritime solutions provider in Lagos, Nigeria, at the heart of one of the world's most vibrant and dynamic trade hubs. Since our establishment, we have dedicated ourselves to addressing the ever-evolving needs of the global shipping and energy sectors by offering a comprehensive range of specialized services. Our areas of expertise include container loading, port management, ship management and operations, vessel classification, vessel inspection, and ship rental intermediation. By leveraging cutting-edge technologies, an experienced team, and an unwavering commitment to excellence, Ocean Field Energy DMCC has built a reputation for delivering exceptional value.

Our organization is deeply committed to fostering long-term relationships with our partners and clients. We take pride in being a dependable ally to shipowners, charterers, port authorities, and other stakeholders in the maritime ecosystem. By adhering to international standards and best practices, we consistently deliver solutions that prioritize safety, sustainability, and efficiency, ensuring that our clients can navigate the complexities of the maritime world with confidence. At Ocean Field Energy DMCC, we are not just providing services—we are shaping the future of maritime and energy solutions.

Vision

To Be a World-Class Energy Corporation Committed to Excellence and Stakeholder Value

Mission

To Deliver Superior Solutions through Operational Excellence, People, and Partnerships

Core Values

Service, Professionalism, Respect, Integrity, Teamwork and Excellence

Brand Essence

Delivering Exceptional Value

Shareholders

ADEBOWALE OLUJIMI

Group Chief Executive Officer

Adebowale is the Managing Director. He is a visionary leader and accomplished business administrator with over 20 years of experience in both the public and private sectors. His extensive knowledge in the oil and gas industry has been instrumental in achieving Emadeb's goals. Under his leadership, the company has reached significant milestones in the downstream sector and successfully ventured into the upstream sector. Emadeb's success in the 2020 Marginal Fields Bid round reflects Adebowale's commitment to integrity and fostering valuable relationships.

A graduate of Economics from the University of Lagos, Adebowale has pursued continuous learning, including recent courses in Project Risk Management at Oxford University and Value Creation at INSEAD. His humble and pragmatic leadership has positioned Emadeb as a force across the Oil and Gas value chain.

DR OLUWASEGUN OGUNSANYA

Managing Director

Segun is a global energy executive with over 20 years of expertise in corporate strategy, portfolio management, and business development. As the Strategic Advisor to the President of ExxonMobil Upstream, he led the development of business plans across 30 affiliates with an annual capital spend exceeding \$20B. Segun played a key role in driving strategic initiatives and global transformation in the upstream portfolio. Previously, as Operations Manager, he oversaw one of ExxonMobil's most profitable assets, generating \$3B in annual revenue.

He has extensive experience in partnerships with the World Bank, international financial institutions, and government agencies. He holds a Ph.D. in Petroleum Engineering from Texas Tech University and an Executive MBA from Rice University's Jones School of Business.

OLUGBESOYE OLUJIMI

Group Executive Director

Olugbesoye is a dynamic entrepreneur with over a decade of experience in the telecommunications and oil & gas industries. As Executive Director, she is committed to maintaining the company's best-in-class status. A meticulous team player, she brings excellence to every engagement.

With a Bachelor's in English and an Executive MBA from London Business School, she also earned a certificate in Entrepreneurial Management from Pan-Atlantic University. Olugbesoye works to strengthen Emadeb's core values and expand its network, driven by the belief that "Whatever is worth doing is worth doing well."

SHERIFF ADEEYO

Chief Financial Officer

Sheriff has dedicated over 20 years combined experience in the financial and energy sector. He has diverse knowledge of international trade finance, business transaction structuring, international money transfer operations, treasury services, risk management and compliance. He developed and pioneered the GTBank International money transfer products for Guaranty Trust Bank Plc and played a pivotal role in the trade structuring of Dangote refinery USD\$9bn loan syndication amongst others.

As the Chief Operating Officer, he is responsible for growth strategy, process and system re-engineering and management by results (MBR) orientation. His Leadership experience includes committee membership of CBN foreign exchange manual review and sub-committee member, commission on banking techniques & practice, International Chamber of Commerce Nigeria. He is an IFC Certified International Trade Finance (CITF) Analyst. He holds a Master's of Science Degree in Finance from the University of Leicester, United Kingdom, Bachelors of Science degree in Business Administration from the University of Benin and a Diploma in Maths and Statistics from Federal Polytechnic Ede. He has also attended several management programme and development courses including a Strategic Leadership programme in Lagos Business School (LBS).

Management Team

UDUAK UGBODAGAH

Head, Human Resources and Administration

Uduak Ugbodagah is the Group Head of Human Resources and Administration at Emadeb Energy Group, a key player in Nigeria's energy sector. With a proven track record in strategic human resources management across industries, Uduak leads the Human Resources and Administration teams, driving recruitment, talent management, organizational reengineering, and culture transformation. She focuses on implementing impactful initiatives such as performance appraisal systems, leadership development programs, and employee engagement strategies that align with Emadeb's business goals. Before joining Emadeb Energy, Uduak served as Head of Corporate Services at Cainergy Group, where she designed and executed strategies for people, administration, and communications to enhance business effectiveness. She also held leadership roles at AOS Orwell Limited, overseeing Human Resources operations across Nigeria and Ghana. Uduak holds a Bachelor's degree in Chemical Engineering from the University of Lagos, an MBA from Lagos Business School, and is a certified Senior Professional in Human Resources International (SPHRi) and an Associate of the Chartered Institute of Personnel Management (ACIPM).

Wale has over 20 years of progressive experience oil and gas industry across a variety of areas namely Subsurface Engineering, Well Design, Completion & Workovers, Planning & Budgeting, Leadership & Operations Management Maintenance, Asset & Project Management, Risk Management, Oil & Gas processing.

He is a certified Petroleum Engineer with the Society of Petroleum Engineers (SPE), a licensed Professional Engineer with the Texas Board of Professional Engineers and Land Surveyors (TBPE), a registered Professional Engineer with the Association of Professional Engineers and Geoscientists of Alberta (APEGA), a member of the Project Management Institute (PMI) holding a Project Management Professional (PMP) designation.

Wale holds a degree in Petroleum Engineering from the University of Ibadan, an MSc in Petroleum Engineering & Project Development from the Institute of Petroleum Studies, a joint degree from the University of Port Harcourt & IFP School in France, & an EMBA from the Haskayne School of Business, University of Calgary.

What We Do

At Ocean Field Energy DMCC, we specialize in delivering a diverse range of services tailored to meet the unique demands of the maritime and logistics industries. Our comprehensive suite of offerings ensures seamless operations, exceptional efficiency, and unwavering reliability. Here's an overview of what we do:

- **Container Loading & Unloading Services**

We offer expert container loading and unloading services designed to handle cargo with precision and care. Whether dealing with standard or specialized cargo, our team ensures goods are secured, transported, and delivered efficiently while minimizing handling times and maximizing safety.

- **Port Management**

Our port management services optimize the flow of goods and vessels at port facilities. By leveraging advanced logistics solutions and coordinating with port authorities, we streamline operations, reduce delays, and enhance the overall efficiency of maritime supply chains.

- **Ship Management and Operations**

Ocean Field Energy DMCC provides end-to-end ship management services, including technical oversight, crew management, and operational support. We maintain vessels to the highest safety and compliance standards, ensuring peak performance and reliable operations across global waters.

- **Ship Rental Intermediator**

Acting as a trusted intermediary, we connect shipowners with charterers to facilitate seamless rental agreements. Our expertise spans diverse shipping needs, from cargo transportation to offshore operations, ensuring fair terms, transparency, and efficiency throughout the process.

- **Vessel Classification Services**

Our vessel classification services ensure ships meet stringent international safety and performance standards. Through detailed inspections and certifications, we help shipowners maintain compliance and improve operational reliability, contributing to the integrity of the global maritime industry.

- **Vessel Inspection Services**

With a focus on accuracy and reliability, our vessel inspection services include pre-purchase, pre-charter, and periodic evaluations. We provide detailed reports and actionable recommendations to ensure vessels meet seaworthiness and regulatory requirements, safeguarding the interests of all stakeholders.

Fleets Overview (Upstream)

This table provides an organized breakdown of various vessels used in upstream operations, oil trading, and gasoline/PMS imports. It is categorized for easy reference, with separate sections for upstream vessels, additional vessels, oil tankers, and gasoline traders. Each category is listed with its respective vessels, providing a clear overview of the fleet and operations involved.

Category	Vessel Names
Upstream vessels	WHISKY STAR IX (Bunker Supply), NIGHTS WATCH IV, NIGHTS WATCH V, NED STARK, JON SNOW, WHISKY STAR I, IBIBAKAM (Replaced Whisky Star I), NIGHTS WATCH II (Spot Hire), NICTAN, DELTA SKY, NED STARK, JON SNOW, IBIBAKAM, NW 4, NW 5, NW 4 RIG MOVE, NW 5 , NW 2, DELTA SKY, NICTAN, Whisky Star, Caracal Pioneer 1 (RIG), Platt Joe Joe (PSV), MV Karin , MV Fortune , MV Jovani , MV Shalom 1.
	MT Cap Diamant, MT Alaska, MT Hafnia Kirsten, MT Dalmas, MT NORDIC BREEZE, MT PERTAMINA PRIDE, MT NORDIC LUNA, MT QUANTUM HARMONY, MT NISSOS NIKOURIA, MT Archangel, MT Delos, MT NORDIC HARRIER, MT DELTA MARINER, MT MARAN POSEIDON, MT ADVANTAGE SOLAR, MT MONTE ULIA
